

PRANA - CHI (ENERGY)

If You Have Problems With:

- Lack of exercise and poor circulation
- Tired and sore muscles
- Poor digestion, constipation
- Arthritis, back pain, bone spurs
- Nervousness, general pain and insomnia
- Poor functioning of internal organs
- Asthma and tracheal inflammation
- Menstrual pain, anemia
- Many chronic conditions

CELLULAR ACTIVATION: Massage stimulation to the sympathetic nervous system opens up the bronchioles to provide maximum oxygen access to the lungs, simultaneously the blood flow to and from the lungs is increased, enhancing oxygen exchange from the lungs to the blood and therefore to the body cells, to excite cellular metabolism.

SPINAL BALANCING: With the body relaxed in the lying position with no weight on the spine, the massage unit will influence a correction to certain conditions of misalignment. Such corrective action can in turn cure or alleviate complications arising in vertebrae joints from certain spinal misalignment

IMPROVING THE IMMUNE SYSTEM: Stimulates globulin production, which increases the immune system's difference capacity thereby providing greater freedom from disorders and disease.

BLOOD PRODUCTION: Blood is produced in the spleen and spinal bone marrow. Reduction of splenic blood production can arise from the spleen's susceptibility to damage. The massager's action on the spine stimulates the sympathetic nervous system, which increases spinal 'marrow' blood production. Any form of anemia can be benefited by this massage action

RESTORATION OF BALANCE TO THE AUTONOMIC NERVOUS SYSTEM: If the parasympathetic and sympathetic nervous systems fail to ensure balance of function, insomnia, excessive dreaming, digestive problems, stomach pain, palpitation, anxiety, constipation, neurasthenia and extensive forms of aches and pains as well as mental stress may surface. The influence of the massager on the sympathetic nervous system can restore the vital balance to the nervous system, resulting in restoration of health from such conditions.

EXERCISING INTERNAL ORGANS: Western medical science is beginning to consider ancient eastern traditions that focus healing and good health on a life force energy, which flows in channels through all living forms. Acupuncture and associated therapies are being increasingly used by western practitioners to 'invigorate' the life force energy flow to restore health to unhealthy organs. The Chinese refer to this energy as 'Chi' / Prana. The Chi / Prana Machine will aid in unblocking the 'Chi' / Prana pathways and ensure a maximum flow of this heating source, through all body organs, to restore normal or improved functioning to Impaired organs and body systems related to such organs.
